PROFESSIONAL SUMMARY

MERN stack developer with 1+ year of experience building responsive web applications with React and Next.js, backed by Node.js, Express, and MongoDB. At Betopia Group I worked on e-commerce and booking platforms, including shopping carts and checkout, multi-step booking flows, authentication, and user dashboards. Looking for junior to mid-level MERN, frontend, and remote opportunities.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, shadcn/ui, Responsive Design
State & Data	Redux Toolkit, RTK Query, TanStack Query, Axios, React Router, Framer Motion
Backend	Node.js, Express.js, REST APIs, Authentication & Authorization
Database	MongoDB, Mongoose, Firebase, Database Design
Tools	Git, GitHub, Postman, npm, VS Code, Figma, Vercel, Netlify

WORK EXPERIENCE

Junior MERN Stack Developer — Feb 2026 – Sep 2026
Betopia Group | Mohakhali, Dhaka

- Worked on multiple web projects as a MERN stack developer, including two main full-stack platforms: Marvell Glass, a custom glass splashback e-commerce and booking platform, and Easy Lift & Clean, a home services booking platform.
- Developed responsive React interfaces with Redux Toolkit and RTK Query, including multi-step booking flows, a shopping cart and checkout, and user dashboards.
- Implemented authentication with email verification codes, password reset, and Google sign-in through Firebase.
- Built REST APIs and backend features with Node.js, Express, and MongoDB.

PROJECTS

Marvell Glass — marvellglass.co.uk

Custom glass splashback e-commerce and booking platform. Customers choose a shape with a live SVG preview, add it to the cart, check out online, and book consultations from a calendar with time slots. Signed-in users get a dashboard with orders, bookings, and downloadable invoices.
Tech: React, Redux Toolkit, Node.js, Express, MongoDB, Firebase, Tailwind CSS

Easy Lift & Clean — cmetayer-mern-frontend.vercel.app

Home services platform for moving, cleaning, laundry, and repair. Each service has its own landing page and a guided multi-step booking flow. Includes email verification, Google sign-in, password reset, profile management, and CMS-driven content.
Tech: React, Redux Toolkit, Node.js, Express, MongoDB, Firebase, Tailwind CSS
